

COMPETITION INFORMATION
FOR JUDGES

We are happy to have each of our guest judges with us tonight. Recently we have tried to make our competitions more constructive so that it is more of a learning experience.

When asked to make a comment, we would appreciate it if one of the judges would address it as to what makes it a good picture, and/or something about it that could have been done to improve it. This can be something like cropping it, lightening or darkening it, or maybe following elements of competition, rather than just saying something such as you liked the image.

We thank you in advance for making this a better learning experience.
