## Why this hybrid setup works for us

1. It allows for that invaluable in-person experience while accommodating members who must remain remote surprisingly well.
2. It is inexpensive (for us) and simple enough so that those of us with limited technical skills can step-in in a pinch.
3. It should be easy to pass on over the years.
4. Our meeting attendance (remote + in-person) has increased as have our membership numbers.
